

ADITYA ANAND

Android Developer (5y+)

[Website](#) | [Email](#) | [GitHub](#) | [LinkedIn](#)

OVERVIEW

- I've independently launched numerous apps and achieved **millions of downloads**
- I've also helped bring a startup to life and **mentored a team of developers**
- I know not only how to build apps that help millions of people, but also how to compete in a saturated market and **win**

HIGHLIGHTS

[Timbre](#)

Apr 2017 – Present

- A beautiful app for editing audio and video files
- **2 million downloads** in 1 year (and counting!)
- Featured by Google and [several](#) tech sites, earned Editor's choice badge and Android Excellence award 2017
- Made extensive use of material design principles, NDK and the FFmpeg library

[Piggy](#) (YC S17)

Nov 2017 – Present

- Currently working as the sole android developer on a personal finance management app
- Achievements: Improved user retention by ~2X, app almost entirely ported to **Kotlin**, built up a vast **testing** stack and currently instituting clean architecture and **modern** best practices

Student Zone

May 2015 – Aug 2016

- Tasked with building an app from scratch for helping students plan their careers and find information about exams, colleges, degrees etc.
- **Mentored** a team of 3 junior android developers
- Handled design, product management and some backend work as well

[Morphing Dialogs](#)

Aug 2017 - Present

- An open source android library to implement smooth material design animations
- **500+ stars** on GitHub

OTHER WORK

~2012 – Present

Ongoing hobbies, freelancing and personal projects

[Iconic](#)

- An app to create customizable icons and graphics for designers and developers
- 200k downloads

[Hacking Tutorials](#)

- Wrote 100+ tutorials and articles on cyber security and privacy for the app
- **3 million downloads**

[Prep for GRE](#)

- App to help students prepare for the GRE

[SAT Vocabulary](#)

- App to help students prepare for the SAT exam
- Made in collaboration with [CollegeNation.org](#)

[AlphaPost](#)

- App to automate social media posting
- Write down your tweets, pick a time and AlphaPost will post it automatically

Outside Android

- A [couple](#) of [games](#)
- A [couple](#) of [chrome](#) browser extensions

EDUCATION

IP University, BVCOE | Delhi

2013 – 2017

- Bachelor's in Computer Science
- Trained in android development with two internships

RELEVANT SKILLS

- Creating beautiful **material design** UIs
- Implementing **best practices** and latest technologies e.g. Dagger, RxJava, Retrofit, Kotlin
- Following **test**-driven-development, from unit tests to UI tests
- Knowledge of **design and architecture patterns** (e.g. MVP/Clean Architecture)
- Writing **low level code**
